The fur - nace moist with dew was the im - age of a won - der be - yond

na - - ture. For it had burned not the child - ren whom it had re - ceived,

just as the fire of the God - head con - sumed not the Vir - gin's womb when it

en - tered there. So in praise let us sing: Let the whole cre -

a - tion bless the Lord and ex - alt Him a - bove all for - ev - er.
